

12/3/2025

On behalf of the Colorado Department of Health Care Policy and Financing:

The Colorado Pharmacy and Therapeutics (P&T) Committee will meet on **Tuesday, January 06, 2026, 1:00- 5:00 PM MST (Held virtually)** to review the products listed in the Preferred Drug List (PDL) Drug Class Review (see below). This meeting will be held virtually via webinar. A registration link will be posted on the P&T Committee [website](#) at a later date.

In preparation for this review, MedImpact is requesting Supplemental Rebate Offers for the State of Colorado's Medicaid program for the products under consideration.

Submission Guidelines:

Action	Details
Submit Clinical Data	Email dossiers and relevant clinical data to Greg Miller, PharmD at greg.l.miller@state.co.us and cc'ing Mohamed Duklef at mohamed.duklef@medimpact.com .
Request to Present	Submit one-page, single-sided clinical summary to Mohamed Duklef at mohamed.duklef@medimpact.com , cc'ing Greg Miller at greg.l.miller@state.co.us , no later than December 31, 2025, at 5:00 PM MST .
Stakeholder Policies	Policies regarding stakeholder comment are available on the P&T Committee website .

Rebate Offer Details: The preferred contract price for Health First Colorado is the **Guaranteed Net Unit Price (GNUP)^{1,2}**, calculated as: *WAC per unit (last day of quarter) - CMS Rebate per unit - Supplemental Rebate Offer per unit*

All supplemental rebate offers for the Therapeutic Categories under review must be submitted via the MedImpact Secure FTP [site](#). Offers can be placed within the MedImpact Secure FTP site starting **November 24th, 2025**, and only offers received by **December 15th, 2025**, will be considered; offers should reflect the Manufacturer's best and final terms. Offers may be accepted or rejected without request for a "best and final" offer. No further offers will be considered after that deadline unless specifically requested by MedImpact. Manufacturers with questions or that are having difficulty using the portal, are encouraged to reach out to the MedImpact team, MedicaidFFSRebateContracting@MedImpact.com. However, we encourage manufacturers to review the frequently asked questions (FAQ) before outreach to MedImpact.

¹ This GNUP becomes the Supplemental Rebate per Unit (SRPU) and is used throughout the contract term. It will also appear in the supplemental rebate contract. The GNUP is the value applied as the Supplemental Rebate per Unit (SRPU) each quarter. The rate is determined using the WAC price, the Manufacturer Offer Rate, and Federal Unit Rebate Amount (URA) in effect for that quarter, throughout the term of the contract. The GNUP is also the value that will appear on the supplemental rebate contract.

² Rebate offers should be effective for one (1) year, starting at beginning of the next quarter following P&T

The following therapeutic classes will be reviewed:

Anticonvulsants – Oral	Anti-Parkinson's Agents
Anxiolytics – Non-Benzodiazepines	Atypical Antipsychotics – Oral & Topical

- Offers submitted will be considered valid for a period of one year.

Kind Regards,
